March 2019

We are working with our tenants to achieve a cleaner, greener and healthier space to live, work and play. ForeverGreen is our sustainability tenant engagement program. We further our ForeverGreen commitment by providing you, our tenants, with monthly tips to support your sustainability efforts.

A: THIS ACCOUNTS FOR 15% OF GLOBAL ELECTRICITY USE.

Q: WHAT IS LIGHTING?

Adjust the power settings on your computer: Putting your computers to sleep when they're not active can save up to $50 per computer every year. Don't use screen savers, instead, set your computer to go to sleep after 15 minutes (or less) of inactivity, dim the brightness control, and turn it off when you've finished using it. *See Managing Your Office Plug Load Best Practice and Energy Efficiency in Tenant Spaces for more details.*

Join the global movement and participate in Earth Hour 2019: Remember to switch off your lights in solidarity with global efforts to secure nature and our home: 30th March, 8:30pm your time. It's time to #Connect2Earth.
